About the exhibition

International Home Care & Rehabilitation Exhibition H.C.R. is Japan's first international exhibition of assistive devices and has become a largest exhibition in Asia after Europe and the United States.

In holding H.C.R. 2021, the organizers, the Japan National Council of Social Welfare, and the Health and Welfare Information Association, work with you to make H.C.R. a more fruitful occasion under the following five goals:

I. Promote the availability and use of home care and rehabilitation equipment
- Enable approach taking the respective advantages of a physical venue and online
- At the physical venue, you can listen to visitors' opinions at first hand, which helps you promote the availability of your own products and develop high quality products.
- Online participation enables you to disseminate information toward a wider range of people and to communicate interactively with them, without limitation of time and place.

II. Contribute to the development of the home care and rehabilitation equipment business and development support, by utilizing H.C.R. official site and "Home Care & Rehabilitation Equipment Guidebook."
- Support communication between exhibitors and visitors
- You can effectively promote your own products, technologies and services by utilizing H.C.R. official site "Exhibitors/Products page" and "Home Care & Rehabilitation Equipment Guidebook.
- Both at the booth and online exhibitions, you can conduct various researches on products and technologies and grasp the needs of homecare and rehabilitation equipment users through communication with visitors and other exhibitors.

III. Use H.C.R.'s scale advantage to vitalize entire welfare and nursing care-related companies.
- H.C.R. received coverage by more than 200 media during the exhibition period in the past. Relevant information spreads across not only welfare and nursing fields but also the entire society.

IV. By utilizing its performance records as an international exhibition, enable the transmission and exchange of product information in line with globalization.
- Based on its accumulated experiences as an international exhibition over more than a quarter of a century, H.C.R. welcomes exhibitors and visitors from Europe, the United States, and Asian nations and encourage them to interact with Japanese companies, etc.

V. Hold the organizers' programs such as seminars about welfare, nursing care, and health fields in Japan and abroad, and push ahead with information sharing in related fields.
- Marking the 40th anniversary of the U.N. International Year of Disabled Persons this year, H.C.R. will hold increasingly enriched seminars and organizers' programs in order to provide information and share knowledge and understanding about welfare, nursing care, and health fields. H.C.R. will thereby provide the latest useful information to many people including those involved in the exhibition.

H.C.R. 2019 Results

In 2019, 105,675 visitors with a wide range of attributes, including welfare industry business, government agencies, and research institutes, visited.

In the visitor questionnaire, 76.8% answered that they were involved in the introduction of the product, such as deciding or selecting to use the product.

105,675 visitors

Looking at the answers to exhibitor questionnaire, it was evaluated that the degree of interests to participate next event was particularly high.

- Change of application details

  After the participation approval is issued and notified, it is, in principle, not possible to change the application details, except in cases where the organizers accepts and where it is unavoidable grounds, such as a corporate merger, etc. Depending on the content of change and the timing, it may not be possible to respond it.

Important matters on participation

- COVID-19 infection prevention measures
  For booth participants: Please take the following infection prevention measures thoroughly. The organizers plan to prepare a separate guideline based on the trends of new coronavirus infections.
  1. Arrange booths and equipment on the premise of avoiding three Cs; three conditions that facilitate the transmission of infectious diseases (closed spaces, crowds, and close contact)
  2. Measure the temperature of exhibiting staff and visitors
  3. Request visitors to disinfect their hands and wear masks

- Application for use of gas, water supply and drainage facilities
  When you plan to use gas, water supply and drainage facilities, please be sure to indicate so in the “gas” and/or "water supply and drainage" section on the application form. We may not able to accommodate a request after issuing participation approval.

- Request for adjoining booths, etc.
  Companies/organizations who want to have adjoining booths, and other requests please indicate it on the application form. it’s not possible to comply with all requests sometime because of the overall booth allocation.
  The organizers cannot accept an application that is conditional upon a booth having a specific location, such as a corner booth.

- Management of member companies of a public organization or public service corporation
  Please contact the organizers when a public organization or public service corporation corresponding to “Party qualified for exhibition,” 1. iv., Page 5, wishes to accept member companies, etc. within its own booth.

- Visa application to enter Japan
  If an overseas exhibitor needs to obtain a visa, the exhibitor shall take responsibility to make, or follow the procedures for obtaining the necessary documents. The organizers shall not issue, an invitation letter and a letter of guarantee according to the format designated by the Ministry of Foreign Affairs of Japan for any exhibitors. Exhibitors who cannot exhibit due the inability to obtain a visa (ie. Refusal by Japanese authorities, insufficient process time) shall not have the right to claim against the organizers compensation for damages arising therein.
