

The exhibition is now successfully closed while enjoying a large number of visitors.

Once again, we would like to extend our sincerest appreciation to all the parties concerned --- companies and organizations who participated in as exhibitors, and those who helped us plan, hold various programs, and supported us in operating this exhibition from the fields of welfare, nursing care, health care and medical care.

Here is the total number of visitors for the 3 days. (Preliminary figures)

=====

Wed. October 5 through Fri. 7th: 88,521 Visitors

=====

* Breakdown of visitors by trade will be promptly reported to you after the exhibition.

We were able to welcome approximately 90,000 visitors who have been waiting for the in-person exhibition of H.C.R where they could gather the latest information about welfare equipment. New products and new technologies were shown and introduced at exhibitors' booths, and through the Organizer's Programs, we hope that this 3-day exhibition served as a meaningful arena for visitors to "see," "touch," and "try on" the "latest" welfare equipment.

H.C.R.2022 Web continues to be open until November 7!

You are able to look for the information of exhibitors who are present at the in-person exhibition site as well as those who are only on the web-based exhibition. If you are interested in products and exhibitors you saw at the in-person exhibition, please follow them up also on the web-based exhibition.

For your information, most of the seminars held during the in-person exhibition will become available as streaming videos on and after October 11 on the web-based exhibition. Please enjoy watching them.
