■ **Exhibitors:**
546 from 14 countries and 1 region
(Domestic:462 Overseas:84)

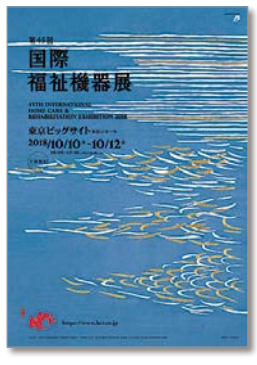
■ **Visitors:**
120,000 (expected)

Product Categories

H.C.R. 2018 Visual Design

The visual design of H.C.R. 2018 for posters, fliers and guidebooks is consisted of the works of **Toshihiko Isa**, a "KATAEZOME" artist (author) born in Kyoto and worked mainly in Kyoto in the field of stencil dyed.

"Katae-zome" is one of the very traditional dyeing methods in Japan using resist paste applied through a stencil. In Katae-zome, an underpainting is stuck to a sturdy piece of WASHI paper that has been tanned in astringent juice, and then the picture is cut out to make a stencil. Resist paste is then repeatedly applied in cutout parts of the stencil to make a repeating pattern, and dye applied to create the colors of the design.
Fabric dyed with Katae-zome is fascinating for the dramatic sharp edges created by the stencils and for the intricacy of the repeating patterns.



Save the dates for H.C.R. 2019: September 25 (Wed.) - 27 (Fri.), 2019 / West Halls and South Halls, Tokyo Big Sight

International Symposium [Y]

Oct. 11 (Thu.)

1:00pm-4:00pm
SI: JP/EN PRE-REG ¥: JPY1,000

Speakers:
① **Anita Nyberg**
Professor emerita
Stockholm University

Anita Nyberg

② **Shingou Ikeda**
Senior Researcher
The Japan Institute for Labour Policy and Training

Shingou Ikeda

Tutor:
Noriko Tsukada, Ph.D, MGS
Nihon University

Noriko Tsukada

Location:
Special Site G1, East Hall 8

[G1-Y01]
Support for balancing working and childcare/nursing care
– the current condition and countermeasure –

Theme:
In total population of Japan, the elderly person 65 years or older (the aging population ratio) was reached to 27.3% in 2016. It is estimated that the ratio will be 33.3% in 2036.
The elderly people needing care continue increasing while aging progresses. At last year's H.C.R. International Symposium, it was reported that there were 5.57 million people doing nursing care and nursing, among them the employed was 2.91 million, of whom quitting jobs are about 100,000 a year. It was also showed that the statistics result that more than 30% of carers cited "understanding of region and workplace" as necessary support.
Regarding child rearing, the waiting child problem of the nursery school has been continuously reported, and it is still difficult to balance work, child rearing, work and nursing care.
In this symposium, we will develop pioneering measures to support the balance of work and childcare / nursing care, invite lecturers from Sweden with high awareness of the public, and learn the current situation and perspective.
In addition, Japan's challenges and the future of Japan are discussed.

H.C.R. Seminars [S]

Oct. 10 (Wed.)	10:30am-12:00pm PRE-REG **[G1-S01] How to maximize the safety and introduction effect of nursing robots**	Special Site G1, East Hall 8
