49th International Home Care & Rehabilitation Exhibition

### **H.C.R. 2022**

### Comprehensive Welfare Exhibition for All Concerned to Realize a Community-Based Symbiotic Society

Welcome to the 49th International Home Care & Rehabilitation Exhibition (H.C.R. 2022)!

This marks the 49th H.C.R., which started in 1974.

H.C.R. provides comprehensive exhibits and information on welfare equipment from Japan and overseas. It also continues to serve as an important information-sharing venue that attracts visitors from a variety of positions related to users of welfare equipment.

It is important to select and use welfare equipment that suits each person's individual needs. The significance of a real exhibition is great, as it provides an opportunity to directly select, see, try out, and match equipment.

H.C.R.2022 (Real Exhibition) features seminars and planned exhibits along with equipment displays by approximately 340 exhibitors.

In addition, Online Exhibition is being held ahead of the Real Exhibition from September 5. The special website titled "International Home Care & Rehabilitation ONLINE Exhibition 2022" allows visitors to search for exhibitors and products, and view videos of the International Symposium.

By utilizing the linkage between the Real Exhibition and Online Exhibition, you can obtain information before and after your visit.

We hope you will enjoy this year's H.C.R., where you can obtain information on welfare equipment from more than 340 companies and organizations from Japan and overseas, through both the real and online exhibitions.

#### **Purpose of International Symposium**

In Japan, it is estimated that by 2040, 1.5 working people will support one elderly.

We are entering an era in which social security will face such major challenges.

On the other hand, as we enter the era of 100-year life expectancy by extending our average life expectancy, it is important to focus on health care, including preventive care and how to maintain and improve our health.

At this international symposium, we are going to learn about the prospects of health-care from Denmark, one of the most advanced welfare countries, and to explore the future of Japan.

In particular, the following three points will be the main topics of the event.

# Introducing a Graceful Poster Image

The design for H.C.R. 2022 is a woodblock print "Unpyo" by Hiroshi Yoshida, a leading printmaker and Western-style painter of the Meiji and early Showa periods.

The work depicts the beauty of delicate light, and by overlaying the image of H.C.R. celebrating its 50th anniversary next year over Mt. Fuji floating in the sunlight amidst a sea of clouds, we presented an image of the 49th H.C.R. to be held in a graceful manner.

Name of work: Unpyo

Printmaker: Mr. Hiroshi Yoshida

# The work described by Mr. Tsukasa Yoshida, Printmaker

Hiroshi Yoshida's woodblock print "Unpyo" is one of the six pieces in the Japan Southern Alps Collection and is paired with "From the Summit of Komagatake," showing a view of Mt. Fuji from the Southern Alps.

This is his representative work featuring clouds. The clouds are contrasted with Mt. Fuji, and are characterized by free and dynamic outlines and gradations of blurred prints (bokashi prints). The difference in the expression of distant clouds and nearby clouds creates a sense of perspective. This work, which was painted after a long period of seclusion in the mountains, conveys the artist's love of nature.

His eldest son, Toshi, had difficulty walking, but Hiroshi traveled with him to the mountains and India, and later Toshi traveled and painted all over the world, including Antarctica, Africa, Europe, and Australia. Hiroshi must have had some special feelings about the future of his eldest son with disabilities.
